## Upakaran List

| S.No. | Name of Parmanent articals                                         | Pice |
|-------|--------------------------------------------------------------------|------|
| 1     | Microscope (biological) Indian body & german objectines            | 11   |
| 2     | Research microscope karl caps german                               | 1    |
| 3     | Student microscope model H.S.A. olympus japan                      | 3    |
| 4     | Student microscope german P II                                     | 3    |
| 5     | Student microscope model H.S.A. olympus japan                      | 3    |
| 6     | Student Microscope P II                                            | 3    |
|       | Student Microscope                                                 | 4    |
| 7     | Student microscope compound                                        | 4    |
| 8     | Student microscope model H.S.A. olympus mode                       | 1    |
| 9     | Student microscope model micro-3 german lenses                     | 1    |
| 10    | Olympus student microscope model H.S.A. 2 objectives               | 1    |
| 11    | Olympus student microscope model H.S.A. 2 objectives               | 1    |
| 12    | Olympus student microscope model H.S.A. 3 objectives               | 1    |
| 13    | Olympus student microscope model H.S.A. 3 objectives               | 1    |
| 14    | Student microscope Olympus model H.S.A. complete in cabinate       | 1    |
| 15    | Olympus model H.S.A. complete                                      | 4    |
| 16    | Olympus model H.S.A. complete                                      | 1    |
| 17    | Research inclined microscope 'censico' make model OA               | 1    |
| 18    | Student microscope "censico" make model C-I, H-R gereman make lens | 14   |
| 19    | Minifield microscope japan make                                    | 1    |
| 20    | Compound microscope olympus H.S.A. complete                        | 4    |
| 21    | Microscope H.S.A.                                                  | 1    |
| 22    | Dissecting microscope censico model P III                          | 5    |
| 23    | Student microscope "censico" make model C-I, H-R Diaphra           | 5    |
| 24    | Olympus Student microscope model H.S.A. complete                   | 2    |
| 25    | Student microscope model H.S.A. standard set complete              | 3    |
| 26    | Dissecting microscope wooden case                                  | 15   |
| 27    | Dissecting microscope                                              | 4    |
| 28    | Dissecting microscope                                              | 10   |
| 29    | Olympus Dissecting microscope                                      | 8    |

संख्या = उपकरणों की कुल संख्या  
= 207.

|    |                                                                 |   |
|----|-----------------------------------------------------------------|---|
| 30 | Olympus dissecting microscope model D.M.                        | 2 |
| 31 | Olympus dissecting microscope model D.M:                        | 3 |
| 32 | Microscope cleaning & Repairing kit super quality               | 1 |
| 33 | Over head projector technique complete with halogen lamp        | 1 |
| 34 | Film strip and slide projector superior quality                 | 1 |
| 35 | Lamp for microscope hertell & Russ                              | 2 |
| 36 | Micro lamp model substage clag ado                              | 2 |
| 37 | Microlamps olympus                                              | 5 |
| 38 | Standared demineraliser model AGSO 'O'                          | 1 |
| 39 | Conductivity meter unit                                         | 1 |
| 40 | 1/4 H.P. compressor                                             | 1 |
| 41 | Water meter unit                                                | 1 |
| 42 | Air filter size 4-2                                             | 1 |
| 43 | Water distillation still automatic 2 lit. stainless still       | 1 |
| 44 | Rocking mirotome japan make                                     | 1 |
| 45 | Hand microtome                                                  | 1 |
| 46 | Open Rotatory microtome spencer type                            | 1 |
| 47 | Senior rotary microtome model 820, pattern with out glass plate | 1 |
| 48 | Automatic razor sharpnor spencor type                           | 1 |
| 49 | Rotatory microtome (Earma japan type)                           | 1 |
| 50 | Microtome razor 120 mm with black 2 handle                      | 1 |
| 51 | Camera tucida mirror type                                       | 1 |
| 52 | Camera tucida prism type (japan)                                | 1 |
| 53 | Camera tucida mirror type                                       | 1 |
| 54 | Calculator fx,82,CB 8 digits (censio)                           | 1 |
| 55 | Elico photo electric calorimeter C1-20A                         | 1 |
| 56 | Elico PH meter model L1-10 T, Elico glass electrode type        | 1 |
| 57 | Electrophoresis apparatus horizontal type 604 systronics        | 1 |
| 58 | Calorimeter special metzer type-2                               | 1 |
| 59 | Autoclave paul stards working pressume 25 lbs pressure 20"x12"  | 1 |
| 60 | Pressure cooker size 6.5 lit.                                   | 1 |
| 61 | Pressure cooker size 7.5 lit.                                   | 1 |
| 62 | Autoclave pressure cooker bajaj 11 lit.                         | 1 |

|    |                                                                                                                                                                                          |   |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|
| 63 | Autoclave vertical electrically operated chamber size 18"x10"                                                                                                                            | 1 |
| 64 | Bath paraffine embedding thermostatically controlled MAC                                                                                                                                 | 1 |
| 65 | Utility oven model 5.80 G                                                                                                                                                                | 1 |
| 66 | Paraffine embedding bath electric 220 volt. A. C.                                                                                                                                        | 1 |
| 67 | Electric Oven model T 1-115 size 35x35x35 cms. (Tempo)                                                                                                                                   | 1 |
| 68 | Oven universal memmert type size 12"x12"x12" Aluminium                                                                                                                                   | 1 |
| 69 | Muffle furnace rectangular work size 5"x5"x10" rating 2 k.w.                                                                                                                             | 1 |
| 70 | Slidolite                                                                                                                                                                                | 1 |
| 71 | Slidoscope                                                                                                                                                                               | 1 |
| 72 | Usha delux oscillating fan 16" 40848 (50) India                                                                                                                                          | 1 |
| 73 | Room heater (radiant)                                                                                                                                                                    | 1 |
| 74 | Immersion heater 100 wt. bajaj                                                                                                                                                           | 1 |
| 75 | Immersion heater (delux)                                                                                                                                                                 | 1 |
| 76 | Hot plate with regulator                                                                                                                                                                 | 1 |
| 77 | Electric Iron (senior)                                                                                                                                                                   | 1 |
| 78 | Electric kettle with safety device                                                                                                                                                       | 1 |
| 79 | Hot air Unit                                                                                                                                                                             | 1 |
| 80 | Slide warming table (electric)                                                                                                                                                           | 1 |
| 81 | Universal table lamp                                                                                                                                                                     | 1 |
| 82 | Bajaj universal junior table lamp complete                                                                                                                                               | 8 |
| 83 | Electric open element heater 1000 wt. (maharaja)                                                                                                                                         | 4 |
| 84 | Electric hot plate fitted with 3-heat control 7 1/2" dia 1500 wts.                                                                                                                       | 1 |
| 85 | Electric tester                                                                                                                                                                          | 1 |
| 86 | Hot plate without regulator single 1000 wt. bajaj                                                                                                                                        | 1 |
| 87 | Medico centrifuge model no. c-852                                                                                                                                                        | 1 |
| 88 | Universal centrifuge machine electrically operated with 12x15 ml. tube s. heads                                                                                                          | 1 |
| 89 | Hand centrifuge m/c with two tubes                                                                                                                                                       | 1 |
